Examiners Amendment

This application is in condition for allowance except for the presence of claims 6 - 16 to an invention non-elected without traverse. Accordingly, claims 6 - 16 have been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1 - 5, 17, and 23 - 32 are allowable over prior art of record. The prior art of record failed to teach a data communication system with a bidirectional bridge circuit comprising an output differential amplifier section that generates an output logic signal from positive polarity data signals and negative polarity data signals received from the transmitter and transmission line, wherein symmetry is controlled in switching transients of the output logic signal using at least one logic gate with higher logic threshold voltage than a mid-supply voltage of the output differential amplifier section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
